

Repair, reuse or replace? - Plan

Repair, reuse or replace? — Grades 4–6

Duration: 20 minutes (adjust as needed)

Learning goal: Compare options while considering safety and usefulness.

Materials: Pretend repair quote and replacement price cards.

1. Welcome / 3 minutes: Preview the goal and invite learners to watch, point, talk, use AAC or work on paper.
2. Model / 5 minutes: A fictional bag costs \$12 to repair or \$30 to replace. Assume an adult confirms the repair is safe and useful. Discuss why the cheapest choice is not always suitable. Do not repair real items in class.
3. Practise / 8 minutes: Explore the 2 worksheet questions together or independently. Allow extra time or skipping.
4. Reflect / 4 minutes: Ask learners to show one money choice and how they worked it out. Sharing is optional.

Adaptation: Learners may explain with words, pictures or numbers; borrowing is only with permission.
