

A six-month adventure - Worksheet

A six-month adventure — Grades 4–6

All money is pretend. Show your thinking with words, pictures or numbers.

1. A \$600 goal already has \$120 saved. How much remains to save?

\$480 / \$720 / \$120

My thinking: _____

2. Save the remaining \$480 equally over six months. How much per month?

\$60 / \$80 / \$100

My thinking: _____
