

Water-saving model lab - Worksheet

Water-saving model lab — Grades 4–6

All money is pretend. Show your thinking with words, pictures or numbers.

1. At 2 litres per minute, how much water does 3 minutes use?

5 litres / 6 litres / 1 litre

My thinking: _____

2. The same model tap runs for 1 minute instead of 3. How much less water is used?

4 litres / 2 litres / 8 litres

My thinking: _____
